RECYCLING OF WASTE PLASTIC TO TILES

ATTENTION
OF ALL MUNICIPAL AUTHORITIES / ENTREPRENEURS

Prime Minister Shri Narendra Modi urged the nation to make Mother India plastic-free and exhorted municipalities, NGOs and the corporate sector to come up with ways for safe disposal of accumulated plastic waste. India generates about 10 million tonnes waste plastics per year which is toxic to environment and all living beings.

To move forward in the direction to achieve this environment-friendly goal, an Innovative technology to convert waste plastic into useful products like tiles, pavement blocks and other structural components etc. is available for Commercialization. The technology is Licensed by NRDC. For more details please contact NRDC.
